

FORTE CULTURA

Capitalising of fortified heritage for sustainable development and competitiveness of cities and regions

This project is implemented through the CENTRAL EUROPE Programme co-financed by the ERDF.

Petersberg Erfurt - a cultural monument in change.
Lower fortress round trip - along restored bastion walls.

1)
Bastion Michael

Around 1915. Left: Bastion Michael (development time 1685-1695). Right: Lunette No. 2, behind it Ravelin Anselm and Gun Caponier-No. 1. In the background: excavated earthworks above the walls were thrown into the castle moat.

December 2005. Still the last since 1920 applied gardens in the fortress moat exist.

July 2009.

August 2010. The restoration of the bastion wall is completed. Finally, the lower fortress round trip and the terrain are designed.

2)
Gun Caponier No. 1

1914. View of the Gun Caponier No. 1 located in the fortress moat. This was built in 1823-1826 from stones of St. Peter's Monastery and originally stocked with bomb-proof earth. 1873 it was fitted with brick hipped roof and an external staircase to the newly created upper floor.

July 2009. Die unchanged Gun Caponier No. 2 illustrates the original appearance of both Caponiers.

Around 1990.

1996.

May 2006. View after complete renovation and approach to the original cubic volume by replacing the ailing, lofty roof by a flat roof.

3)
Bastion Gabriel

April 2008. Beginning of the partial exposure of 1874 in the course of leveling work spilled bastion walls. Construction of the Bastion Gabriel between 1680 and 1695.

March 2009. In the earth hidden wall is still in good condition. With the wall in front (now lower) the existing wall, built in former city wall, was reinforced.

November 2009. Restoration.

September 2010. Erfurt coat of arms on the corner of the former city wall. In 2010 it was restored and worked out.

August 2010. The restoration of walls is completed. Similarly, the adjacent site was designed with a staircase and barrier-free pathway in of the castle moat.

4)
Bastion Martin

April 2000. Restoration of Bastion Martin. With the construction of the Bastions Martin, Kilian and Leonhard (from 1665 to 1673) the fastening of the Petersberg city-side began.

September 2010. Since the 1920s, a viewpoint is located on the Bastion Martin.

March 2006. View to Bastion Martin and the lower fortress round trip.

September 2007. View to Bastion Martin from Lauentorstrasse.
